

VU Series Specifications

Venturi w/ Integral Union x MPT

PRODUCT DESCRIPTION: The VU flow balancing brass venturi provides highly accurate flow measurement capabilities. The venturi includes an integral union on the inlet side with standard male pipe thread on the run-out side. The union end incorporates an o-ring for maximum sealing protection. The venturi comes standard with two pressure/temperature ports for instrument readings. The efficient low loss venturi design provides effective flow balancing with minimal system pressure loss. Union connection options include MNPT, FNPT, and SWT, and a variety of reductions.
