## Automatic Steel Balancing 2-Way Kit - SW2Y Submittal

**PRODUCT DESCRIPTION:** The SW2Y Automatic Balancing Valve Kit is a packaged and partially preassembled grouping of components required to complete installation of a terminal unit. Temperature control valves, piping, and coils are supplied "by others". Mounting and testing of the customer provided TCV is available at an additional charge. Parts for reductions in line size are available for an additional charge. Consult with factory for information and pricing.
